Education

MIT Academy of Engineering

Bachelor of Technology in Computer Engineering (CGPA-9.06)

Aug 2023 – Jul 2027

Pune, Maharashtra

Technical Skills

Languages: C++, Java, JavaScript

Frontend: React.js, Tailwind CSS

Backend: Spring Boot, REST APIs, Microservices

Databases: MySQL, MongoDB

DevOps & Cloud: Docker, Jenkins (CI/CD), AWS (EC2, S3, IAM, VPC, Elastic Beanstalk, RDS, ECR, ECS)

Experience

Campus Credentials

June 2025 – July 2025

Full Stack Web Developer Intern

Remote

- Designed and developed a multi-role grocery delivery platform, managing real-time order workflows
- Developed multiple scalable REST APIs using Spring Boot, Hibernate/JPA, and MySQL
- Implemented JWT-based authentication and role-based access control (RBAC) for secure backend services
- Integrated Razorpay payment gateway with webhook and HMAC validation for reliable transactions
- Engineered a responsive UI using React.js and Tailwind CSS for improved user experience
- Containerized the application using Docker to ensure consistent deployment across environments
- Deployed full-stack application on AWS using Amazon Elastic Beanstalk (backend) and S3 (frontend)
- Used AWS Secrets Manager for secure credential management

Projects

Playgorithm – AI-Driven Algorithm Learning Platform | *Spring Boot, React, Docker* Nov 2025 – Dec 2025

- Developed an interactive DSA and AI/ML learning platform featuring multiple gamified modules and visualizers
- Built a robust backend using Spring Boot and integrated Python modules for algorithm processing
- Containerized and deployed the application using Docker to maintain scalability and availability

Dockerized To-Do App | *Node.js, Docker, Jenkins, AWS*

Jan 2026 – Feb 2026 

- Developed a scalable REST API using Node.js and Express for task management
- Implemented a CI/CD pipeline using Jenkins and GitHub Webhooks for automated deployments
- Containerized the application using Docker and Docker Compose for simplified environment setup
- Deployed application on AWS using Elastic Beanstalk (backend) and S3 (frontend)

Cloud-Native Spring Boot Job App | *Java, Spring Boot, Docker, PostgreSQL, AWS*

Mar 2026 

- Developed a RESTful backend using Spring Boot and Spring Data JPA for job management and search operations
- Designed PostgreSQL schema and integrated with Amazon RDS for scalable database deployment
- Deployed application on AWS using Elastic Beanstalk with packaged JAR
- Containerized application using Docker and pushed images to Amazon ECR
- Configured ECS Fargate service for scalable container orchestration
- Integrated AWS Secrets Manager for secure database credential management

Achievements

- Achieved Knight badge on LeetCode (Top 4.76%), solved 500+ Data Structures and Algorithms problems
- Qualified GATE 2026 (CSE), demonstrating strong fundamentals in core computer science subjects
- Achieved 3-star rating on CodeChef (Max Rating: 1613) in competitive programming contests
- Ranked 4th in Computer Engineering department with a CGPA of 9.06
- Selected for Super-30 batch at MITAOE for advanced technical training and mentorship
- Serving as Vice-Chair of ACM MITAOE, organizing technical events and workshops
